

## TERMS & CONDITIONS

### RocketX Algo Pro Account

**Version:** V0.1 **Effective Date:** 20 May 2026

**Provider:** RocketX (Pty) Ltd (Company No. 2020/824856/07), an authorised financial services provider licensed and regulated by the Financial Sector Conduct Authority (FSCA), FSP No. 52142, and an authorised OTC Derivative Provider.

## CONTENTS

1. INTRODUCTION AND SCOPE
2. DEFINITION OF ALGO PRO ACCOUNT
3. PERMITTED USE – ALGORITHMIC TRADING
4. PROHIBITED PRACTICES – NO HIGH-FREQUENCY TRADING (HFT)
5. MONITORING AND ENFORCEMENT
6. ADDITIONAL REPRESENTATIONS AND WARRANTIES
7. RISK ACKNOWLEDGEMENT
8. FEES AND REVENUE MODEL
9. TERMINATION AND SUSPENSION
10. AMENDMENTS

### 1. INTRODUCTION AND SCOPE

1.1. These Terms and Conditions (“Algo Terms”) apply specifically to Clients who have been approved for an Algo pro Account with RocketX (Pty) Ltd (“RocketX”, “we”, “us”).

1.2. These Algo Terms form part of and supplement the main Client Agreement (including all annexures, Risk Disclosures, and the Application Form). In the event of any conflict between these Algo Terms and the main Client Agreement, these Algo Terms shall prevail solely in respect of the Algo pro Account.

1.3. By applying for or using an Algo pro Account, the Client confirms that they have read, understood, and agree to be bound by these Algo Terms.

### 2. DEFINITION OF ALGO PRO ACCOUNT

2.1. An Algo pro Account is a specialised Trading Account that permits the use of algorithmic trading strategies (including the use of Expert Advisors / EAs, custom scripts, APIs, or automated systems) subject to the strict limitations set out below.

### **3. PERMITTED USE – ALGORITHMIC TRADING**

3.1. The Client may use automated trading systems, Expert Advisors (EAs), custom indicators, scripts, or API integrations on the MT5 Trading Platform for their Algo pro Account.

3.2. All automated activity must be executed solely through the Client's own Algo pro Account and under the Client's security credentials.

3.3. The Client remains fully responsible for all trades generated by any algorithmic system, including any losses, fees, or margin calls.

### **4. PROHIBITED PRACTICES – NO HIGH-FREQUENCY TRADING (HFT)**

RocketX maintains a strict prohibition on High-Frequency Trading on Algo pro Accounts. The following activities are explicitly prohibited:

4.1. High-Frequency Trading (HFT): Any strategy that executes a large number of orders in very short timeframes (typically sub-second to a few seconds) with the aim of profiting from small price inefficiencies, latency arbitrage, or high order cancellation rates.

4.2. Excessive order placement and cancellation (quote stuffing / layering / spoofing behaviour).

4.3. Trading strategies with average holding periods of less than 15 seconds per trade.

4.4. Use of ultra-low latency connections, co-location services, or any hardware/software designed to gain sub-millisecond advantages not generally available to retail clients.

4.5. Any form of automated trading that generates more than 300 orders per hour on a sustained basis (RocketX reserves the right to lower this threshold at its discretion).

4.6. Market making, latency arbitrage, or any strategy reliant on exploiting RocketX's or liquidity providers' quote feed latency.

Any breach of the No HFT rule will be considered a material breach of the Client Agreement and these Algo Terms.

### **5. MONITORING AND ENFORCEMENT**

5.1. RocketX monitors all trading activity on Algo pro Accounts using automated systems and manual review.

5.2. RocketX may, at any time and without prior notice:

- Request full source code or detailed logic of any EA/script used.

- Temporarily or permanently suspend algorithmic access.
- Close open positions.
- Restrict or terminate the Algo pro Account.
- Apply penalties or forfeit profits derived from prohibited activity.

## **6. ADDITIONAL REPRESENTATIONS AND WARRANTIES**

The Client warrants and undertakes that:

6.1. All algorithmic systems used have been developed and tested responsibly and do not rely on prohibited practices.

6.2. The Client will not share their Algo pro Account credentials or allow third-party managed algorithmic trading without prior written approval from RocketX and appropriate regulatory licensing (where required).

6.3. The Client will maintain logs of all algorithmic strategies for at least 12 months and provide them to RocketX upon request.

6.4. The Client accepts full responsibility for any technical errors, bugs, or unintended behaviour of their algorithms.

## **7. RISK ACKNOWLEDGEMENT**

The Client acknowledges that algorithmic trading, even when not HFT, carries additional risks including but not limited to:

- System failures, connectivity issues, and platform downtime.
- Over-leveraging due to rapid order execution.
- Model risk (algorithms performing differently in live markets vs backtests).
- Increased exposure to Abnormal Market Conditions.

The Client confirms they have the necessary knowledge and experience to manage these risks.

## **8. FEES AND REVENUE MODEL**

8.1 All standard fees, spreads, swaps, and RocketX's counterparty revenue model (as detailed in the main Client Agreement) continue to apply. RocketX may charge additional API/Algo usage monitoring fees (if introduced) with prior notice.

### **8.2. Minimum Deposit Requirement**

- The minimum initial deposit required to open an Algo pro Account is **USD 50** for the first **1,000 Algo pro Accounts** created on the platform.
- This reduced minimum deposit of USD 50 is limited to **one Algo pro Account per Client**.
- Any additional Algo pro Accounts requested by the same Client, or any new Algo pro Accounts opened after the first 1,000 accounts have been created, will require a minimum deposit of **USD 100** per account.

## 9. TERMINATION AND SUSPENSION

9.1. RocketX may immediately suspend or terminate an Algo pro Account if it reasonably believes the Client is engaging in High-Frequency Trading or any other prohibited practice under Clause 19 of the main Agreement.

9.2. Upon termination, any remaining balance (after closing positions and deducting fees) will be returned to the Client via the TPFA Account, subject to standard withdrawal procedures.

## 10. AMENDMENTS

10.1. RocketX may amend these Algo Terms by giving the Client at least 7 Business Days' notice via email or platform notification. Continued use of the Algo pro Account after such notice constitutes acceptance of the amended terms.

**Acceptance** By selecting/activating an Algo pro Account, the Client confirms acceptance of these Algo Terms and the main Client Agreement.
